

Czech Chemical Society, Ioannes Marcus Marci Spectroscopic Society, and  
Czech Technical University in Prague

are pleased to announce:

# 17<sup>th</sup> Radiochemical Conference

11 – 16 May 2014, Mariánské Lázně, Czech Republic

## SAVE THE DATE

### RadChem 2014

Organised on behalf of the EuCheMS Division of Nuclear- and Radiochemistry  
on the occasion of the 80<sup>th</sup> anniversary of the Szilard–Chalmers effect discovery  
Sponsored by the European Association for Chemical and Molecular Sciences

RadChem 2014 will cover most topics of the former meetings of this series. Papers are invited from all the fields of nuclear- and radiochemistry addressing particularly the following topics

- Radionuclides in the Environment, Radioecology
- Nuclear Analytical Methods
- Chemistry of Actinide and Trans-actinide Elements
- Radiation Chemistry
- Production and Application of Radionuclides
- Separation Methods, Speciation
- Chemistry of Nuclear Fuel Cycle (*organised as the 1<sup>st</sup> [ASGARD](#) International Workshop*)
- Radiopharmaceutical Chemistry, Labelled Compounds
- Education

However, the submitted contributions need not be limited to the enumerated topics.

As usually, Equipment and Services Exhibition will be organised in parallel to RadChem 2014. Round table discussions should offer the space for exchange of ideas and views on weighty topics. Further information will be distributed together with the Call for Abstracts in early September 2013. In the meantime, for information, please check on our website for updates: <http://www.radchem.cz> or contact Conference Secretariat: [radchem@fjfi.cvut.cz](mailto:radchem@fjfi.cvut.cz).

### IMPORTANT DEADLINES

Call for Abstracts: September 2013  
Abstracts Submission: 30 November 2013  
Authors Notification: January 2014  
Registration / Hotel Reservation: February/March 2014  
Advance Programme: April 2014  
Full Papers: 11 May 2014 (at the on-site registration)

**Leó Szilárd**  
(11/02/1898–30/05/1964)
